

EMPLOYEE SPOTLIGHT

Get to know **Rafael Porto**
Full-Stack Developer

I LOVE WORKING WITH THE DEV TEAM BECAUSE...

Coding is my best skill, and I like to overcome challenges.

THE MOST UNIQUE PART ABOUT MY ROLE AT BREAKTIME MEDIA IS...

Being responsible to improve things and developing new technologies that help my teammates and me to work better.

MY FAVORITE DEV TOOL IS...

IntelliJ. IntelliJ is an IDE (integrated development environment) developer tool that I use for programming in Java and other technologies that I use.

IF I COULD EAT ONE THING FOR THE REST OF MY LIFE, IT WOULD BE...

Barbecue. Especially picanha - that's my favorite!

IF I WON THE LOTTERY, THE FIRST THING I WANT TO DO IS...

Take care of my dad. My dad is responsible for everything in my life, and he is my best friend. He deserves better things that I now can provide.

THE NEXT DESTINATION ON MY TRAVEL BUCKET LIST IS...

Rondonópolis. I have never been to this city, but I'll be there this weekend for my friend's wedding!

I LOVE BREAKTIME MEDIA BECAUSE...

Breaktime Media is growing, and I joined this company to help grow together. It is a fantastic opportunity for my career with great colleagues. I feel at home here.
